
PUBLICATIONS BY G.VASANTHY

Books and CD-ROM

VASANTHY, G. 1976. *Pollen des montagnes du Sud de l'Inde / Pollen of the south Indian Hills*. Inst. Fr. Pondichéry. Trav. Sec. Scient. Tech. Tome 15, 74 pages, 36 plates. Bilingual.

VASANTHY, G. & GRARD, P., 2007. *Pollen grains of South Indian trees V.I.O: A user-friendly identification software*. Collection Ecologie no.45, IFP (CD-ROM).

Articles in Scientific Journals

THANIKAIMONI, G. & G. VASANTHY, 1972. Sarraceniaceae: Palynology and Systematics. *Pollen Spores* 14 (2): 143.

VASANTHY, G., 1978. Complexities of aperture, columella and tectum. *IV Internat. Paly. Conf. Proc.* 1: 222-227.

VASANTHY, G. & S.A.J. POCOCK, 1981. A comparative study of anomalous and normal pollen of *Rapanea*: Morphology, Elemental Analysis, Sterility and Fungal Parasitism. *Pollen Spores* 23 (3-4): 349-379.

VASANTHY, G., 1985. Palynology and certain aspects of histology of south Indian Vernonieae (Asteraceae). Doctoral Thesis. University of MaDras, 241 pp; *U.S. Library Congress Card Number I.E. 58159 & Card Number 88 - 910069*. CD-ROM publ. by IFP in prep.

POCOCK, S.A.J. & G. VASANTHY, 1986. EDS analysis of pollen wall surfaces of *Vernonia monosis* Cl. (Asteraceae) and pollen-soil concentration of elements. *Geophytology* 16 (1): 37-53.

VASANTHY, G. & S.A.J. POCOCK, 1986. Radial through Rotated symmetry in striate pollen of the Acanthaceae. *Can. J. Bot.* 64: 3050-3058.

VASANTHY, G. & S.A.J. POCOCK, 1987. On the pollen tetrads of the south Indian Ericaceae, *Gaultheria*, *Rhododendron* and *Vaccinium* with special reference to *R. nilagiricum* Zenk. *Bull. Jard. Bot. Nat. Belg.* 57: 213-245.

POCOCK, S.A.J., VASANTHY, G. & B.S. VENKATACHALA, 1987-1988. Introduction to the study of particulate organic materials and ecological perspectives. *Jour. Paly.* 23-24: 167-188.

VASANTHY, G., 1988. Pollen analysis of Late Quaternary sediments: Evolution of Upland savanna (Nilgiris, South India). *Rev. Palaeobot. Paly.* 55: 175-192.

-
- POCOCK, S.A.J. & G. VASANTHY, 1988. *Cornetipollis reticulata*, a new pollen with angiospermid features from Upper Triassic (Carnian) sediments of Arizona (USA) with notes on *Equisetoporites*. *Rev. Palaeobot. Paly.* 55: 337-356.
- VASANTHY, G., VENKATACHALA, B.S. & S.A.J. POCOCK, 1990. The evolution of angiospermid pollen characteristics: Conjectures and Queries. *Palaeobotanist* 38: 131-146.
- POCOCK, S.A.J., VASANTHY, G. & B.S. VENKATACHALA, 1990. Pollen of Circumpolles - An enigma or morphotrends showing evolutionary adaptation. *Rev. Palaeobot. Paly.* 65: 179-193.
- VASANTHY, G., POCOCK, S.A.J. & B.S. VENKATACHALA, 1992. A comparative pollen morphological (LM, SEM & TEM) study of the Triassic *Cornetipollis reticulata* and the tribe Trichanthereae of Acanthaceae. *Palynology* 15: 24.
- ROWLEY, J.R. & G. VASANTHY, 93 -94. Exine development, structure, and resistance in pollen of *Cinnamomum* (Lauraceae). Erdtman Commemoration Volume, *Grana* (Suppl.). 2: 49-53.
- VASANTHY, G., DE FRANCESCHI, D. & S.A.J. POCOCK, 1993-94. Geometric aspects of pollen: Polyhedrons (Vernonieae-Asteraceae), Rotated symmetry (Acanthaceae), and Pyramidal to prismatic Spinules (*Nothapodytes* - Icacinaceae). Erdtman Commemoration Volume, *Grana* (Suppl.) 2: 37-43.
- VASANTHY, G., CORNET, B. & S.A.J. POCOCK, 2004. Evolution of proangiosperms during Late Triassic: pre-Cretaceous pollen trends towards mono- and dicotyledonous taxa diversification. *Geophytology* 33: 99-113.
