PUDUCHERRY: Phase II Census data will be released by the end of the year, and it will contain information on fertility, migration and work patterns, Director of Census Operations, Tamil Nadu and Puducherry, S. Gopalakrishnan said on Thursday.

He said he had also re-

ceived requests to provide data on gender issues and households headed by women, he said speaking at a workshop on census of houses, household amenities and assets, held here on Thursday. Mr. Gopalakrishnan welcomed inputs from participants on the kind of data that should be collected.

The workshop was con-

ducted to disseminate data on Houselisting and Housing Census Household Amenities and Assets census, which was released in March, a release said.

Similar workshops have been planned in Karaikal, Mahe and Yanam. Another focused workshop was planned in Puducherry, the release said.
